

PROJECTION BASED INSTALLATION

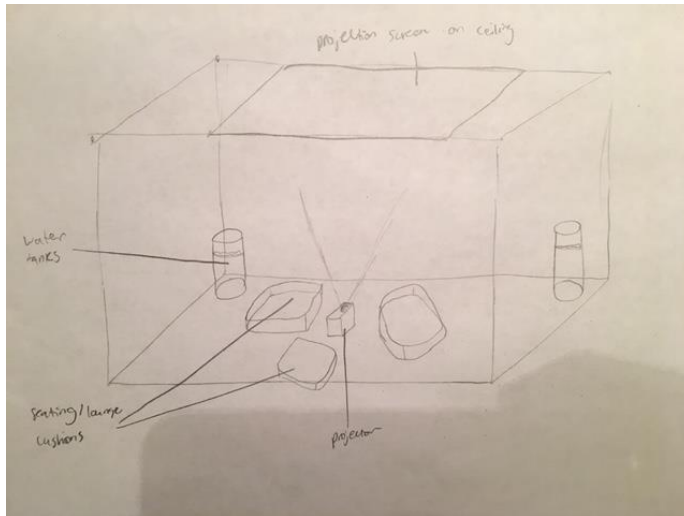

Basic concept:

- Shift viewers sense of equilibrium via comfy things to lay on
- Show them crazy films on the ceiling
- Create an atmosphere/experience
- Include some sculptures

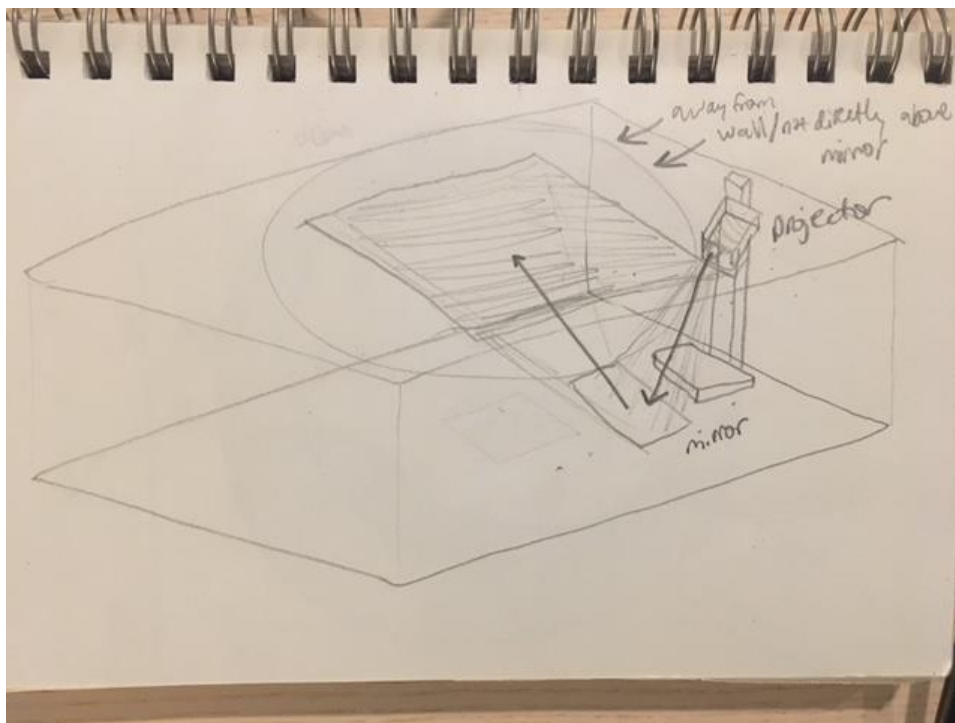

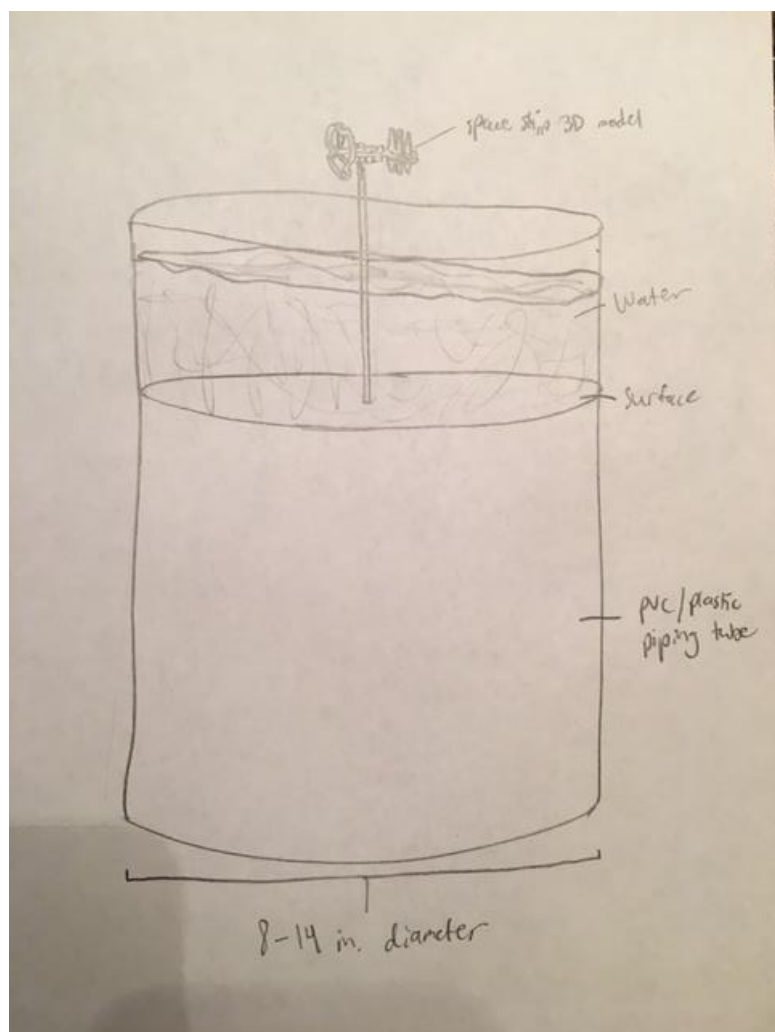

Room

- Black curtains(tablecloths) all over the walls to blackout room
- Black short carpet
- Pedestals for water-based sculpture, also covered with black tablecloths
- Screen on ceiling
- Square clouds sittin around

- Figured out I can use a mirror to almost double projection length and size

Films

- Mental vs physical
 - Experiences
 - Location/migration
- Film principles carry into show
