

For the BFA show I plan and hope to do a video of some sorts. I'm not sure if it'll be a type of animation or live action but I know the project will be a type of video. One idea I had was based on something I made in 105 where it was a recreation of a battle sequence in the Pokemon games where I gave it an original story with a lot of the assets made from scratch. Below is a screenshot of the Youtube video.
